

SBC_FSBL_Verify

```
graph LR; A[SBC_FSBL_Verify] --> B[SBC_FSBLIntgCheck]; B --> C[SBC_DeviceSecuirtyKeyCreate];
```

The diagram illustrates a three-step process for SBC initialization. It begins with a box labeled 'SBC_FSBL_Verify', which is shaded gray. A blue arrow points from this box to a second box labeled 'SBC_FSBLIntgCheck'. Another blue arrow points from the second box to a third box labeled 'SBC_DeviceSecuirtyKeyCreate'. All boxes have a thin black border.
